Judges, Senior Project  
Sequoyah High School  
4485 Hickory Road  
Canton, GA 30115

Dear Judges:

Hello my name is Autumn. I am a senior at Sequoyah High School. I am a Varsity basketball cheerleader and an Honor student. I am also the commander of Kitty Hawk Air Society which is AFJROTC's National Honor Society. I am currently a member of the Spanish club. I have been on crew for two SHS drama Productions. In the fall I will be attending KSU to major in pre-med; I aspire to be a surgeon. For my senior project I attended the University of North Georgia's summer honors program. This program challenges students' knowledge, strength, and leadership abilities.

My paper topic is "How has the leadership evolved and what is restricting women from becoming leaders?". I researched the effects of diversity and leadership, as well as the history of women in leadership positions. I also researched a brief history of the change of leadership. I looked into the psychology of women in leadership and how men perceive women leaders. I learned that women hold 4.2% of CEO positions, and that dominance behaviors used by men in leadership positions make women in the workplace.

My product is intangible. While I was going to the UNG summer honors program I improved social, physical, and Leadership skills. Leadership was a key role in both my research paper as well as the Summer Leadership program that I attended. While I was at camp, I was grouped with people I didn't always get along with. I also learn to manage my groups abilities in order to complete a task.

My project is a Capstone project it relates to my 4 years in AFJROTC. It developed my leadership skills. Skills are crucial in any career. Definitely use my leadership skills in the future. The camp also improved my social skills and confidence levels.

I hope you enjoy my presentation. Thank you for taking the time to help judge my senior project. I Appreciate your dedication.

Sincerely,  
*Autumn Phelan*
